

NEW!

GEMTOR #541NYC Class II Fire Service Harness

FEATURES AND BENEFITS

- Fast and Easy Donning
- Can be attached to bunker pants using loops available from most turn-out gear manufacturers.
- Unique adjustable leg strap design, place one foot through a color coded loop and the entire harness goes on effortlessly.
- Aluminum, 3-Stage locking Pompier hook with 2" side opening gate (NFPA General Use Carabiner classified by UL) weighs less than 11 oz.
- Extremely lightweight, weighs only 2.8 lbs! (including Pompier hook).
- Forged alloy steel escape system attachment D-ring (not shown).
- Sturdy, lightweight nylon webbing 1 3/4" wide stitched with high tenacity nylon thread.
- Easy waist belt operation just engage steel snaphook and D-ring.
- Available with right side or left side (FDNY style) opening.
- Unique design lowers the body's center of gravity and helps reduce the possibility of toppling.
- Classified by Underwriters Laboratories Inc. in accordance with NFPA 1983-2006. (Class II harness)
